FOR IMMEDIATE RELEASE

BUILDERADIUS, INC. PRESENTS BLUEPRINCE UNIVERSITY

ASHEVILLE, NC - March 27, 2006 - BUILDERadius, Inc. is proud to present BluePrince University (BPU), an online training center available to all BluePrince 2.0[®] jurisdictions. Developed to meet the instructional needs of individual users, BPU will help each staff member master the BluePrince software. Users are presented with a series of carefully designed online lessons and follow-up quizzes, organized by topic, along with an interface that allows them to monitor their overall progress.

BPU's course library covers every aspect of the BluePrince software. Each course includes individual lessons specifically related to the course topic and BPU's search interface makes it easy for users to find the lessons they need. Lessons take the form of instructional videos, complete with audio, and guide users through the steps required to accomplish particular tasks. At the end of each lesson, users are quizzed to assess how well they've learned the material. So that individuals can easily monitor their progress, BPU shows at a glance which quizzes users have passed and which courses they've completed.

Other BPU features include quiz and course completion averages across all BluePrince 2.0 jurisdictions that can be used to compare your jurisdiction's progress against all BluePrince jurisdictions as a whole, the latest news from the BPU staff, and a direct link to the BluePrince 2.0 User Guide. To access BPU, log in to the BluePrince Resource Center (www.BuildingDepartment.com/rcenter) and click the BluePrince University tab. About BUILDERadius, Inc.

BUILDERadius, Inc: Based in North Carolina, BUILDERadius offers its BluePrince software for community development to municipal building authorities across the United States. BluePrince has been developed in consultation with the International Code Council and is distributed as the official replacement for the SBCCI/ICC BDS permitting software. For more information, send inquires to info@BluePrinceSoftware.com or visit www.BluePrinceSoftware.com.
